

Ten Foot Pole, Heaven And Hell

Mother makes a bath and smiles
while she watches her five children drown
without a sound

Love in sickness and in health
her tearful husband pleas in her defend,
"She lost her sense";

Don't need to look beyond, take a look around
From the time we're born 'til we join the ground
Heaven and Hell always close by
Two worlds made on earth whuile we're still alive

Boy and girl in summer grass
sun as witness, promise from the heart
to never part
Family has to move away
"Forever"; now a cold wind in the past,
love couldn't last

Don't need to look beyond...

Don't need to look beyond, take a look around
From the time we're born 'til we join the ground
Heaven and Hell always close by
No surprises when we die
Heaven and Hell always close by
Our first kiss and last goodbye
