

Tenth Avenue North, Satisfy

Before the sun has touched the sky
Colors bursting from your eyes
Before the flood of the morning light

Before the earth has felt your heat
Before I stand up to my feet
Before I begin to feel this weak

Satisfy me Lord of all
Satisfy me Lord of all
I'm begging You help me see You're all I want, You're what I need
Oh satisfy me Lord

When the day is closing in
Like the stars in the night I am falling
Into the pull of the earth and its affection
In me, oh Lord, can You create
A pure heart 'cause I'm afraid that I just might run back to the things I hate

Satisfy me Lord of all
Satisfy me Lord of all
I'm begging You help me see You're all I want, You're what I need
Oh satisfy me Lord

You're beautiful
You're beautiful
You're more than all this world can give
You're beautiful
You're beautiful
Your love is all I need to live
(2x)

Satisfy me Lord of all
Satisfy me Lord of all
I'm begging You help me see You're all I want, You're what I need
Oh satisfy me Lord
