

Teramaze, Once Lost

Looking through empty eyes
Finding the truth that lies
But one truth that never dies
From death, that Christ did arise
The snares of death confronted me
He heard my cry from afar
His hands create this sanctuary
Unveiled to me on the day of my salvation
Over life and under rain
Over blistered fields of pain
So remind and enhance in endless
We dance
Delivering all the promise you made
We were once lost but now we're found
We hold our faith through it all
Victory is on our side
Forever more
The mountain of his whole love
Watch him reign
Your soul he will save
