

# Terence Trent D'Arby, Passion

Everything's all right  
Because you're here with me  
Unrestricted - totally  
And it's a safe bet that tonight  
Will go just fine  
Work your body next to mine  
Unwind  
Let's keep our passion tight  
This ain't no fashion night  
And if you close your eyes  
A magic carpet ride will fill the skies  
I'm glad you came  
I need your company  
It's only better with the three  
Lay back, relax  
And let your love go through  
It's all I ask of you to do...  
You look so good right now  
Why don't you make a vow  
To show me how  
I'll try to make it smooth  
But you have got to move  
If we're doing fine...  
Passion  
In bed together  
I want to love you all night long  
Passion  
Moving together  
Making your feelings come alive  
Passion  
You're my forever  
I want to have you for my own  
You're pretty special girl,  
You mean the world to me  
Everything's all right  
Because you're here with me  
Unrestricted - totally  
Come, let's enjoy  
Our time right now  
And let's not wait  
Let's escape - there's a reason  
To celebrate...  
And if you close your eyes  
A magic carpet ride will fill the skies  
Passion  
In bed together  
I want to love you all night long  
Passion  
Moving together  
Making your feelings come alive  
You're my forever  
I want to have you for my own  
You're pretty special girl,  
You mean the world to me
