

Terminal Choice, My Way

I can see the pain you feel
I can see the fear inside
I can see you're hating me
I can see your growing rage

You want to run
Yut you can't
Because your body
Is taked up in chains
Yes my dear
What you can expect
It want hurt me
But maybe you

This is my love that you feel
This is my steel that you feel
This is my liquid in your face
That's your blood on the floor

This is my love that you feel
This is my steel that you feel
This is my liquid in your face
That's your blood on my lips

This is my way to say goodbye
To future for you
To love for me
There's no need for you to cry
Enjoy your trip to eternity
