

# Terminal Choice, New World

This is the time  
We make our choice  
You have to beside  
Between good and evil  
We build or claim  
To new world order  
You can fight with us  
Or choose your death  
We have to feed  
The rich and mighty  
So we can use them  
For our plans  
We don't need the poor and helpless  
We destroy what we don't need

And we fight for the human future  
With bombs and rockets  
No one can't stop us  
And we fight for a better race  
A nation of fighters  
It's a new world

We have the money  
We have the strength  
We have the brain  
We have the have the success  
We build a nation  
Full of power  
Politics is on our side  
We control the stated people  
What they do  
What they for us  
We are better  
Than ever before  
A higher race  
Is what we are
