

Terra Naomi, Up Here

Roll into your town and Im walking around
Got some extra time think Ill throw some money down
And you follow me around
and youre asking for the time
Your asking what I found
think Im gonna rob you blind

maybe its the tattoo on my arm
that I drew while I was bored waiting tables in new york
a heart and two flowers intertwined with a vine
I can see your point, I can see your point

And up here I am who I am
And if you dont like it then fuck you, man
Im not a thief and a whore
Please dont follow me around next time Im shopping in your store

And up here Im making you aware
That if you dont like me well I dont care
Ill be exactly who I am and if you got a problem with it
Well thats your problem, man

After Ive paid count the money that you made
Then you go to the show like to be entertained
And I get up on the stage
Trained monkey in a cage
And its just another day just another day

And I can see you from my place on the stage
Third row center aisle
Hot blond with you
All smiles
And you got another woman but thats in another town
And you cant wait til this is over
Gonna lay that honey down

And up here I am who I am
And if you dont like it then fuck you, man
Im not a thief and a whore
Please dont follow me around next time Im shopping in your store

And up here Im making you aware
That if you dont like me well I dont care
Ill be exactly who I am and if you got a problem with it
Well thats your problem, man

And your good values taught you how to behave
Who to treat kindly and who to enslave
And like all good men you still fall to the floor
When a great big rack
And a ripe round ass
Walk through that door

And up here I am who I am
And if you dont like it then fuck you, man
Im not a thief and a whore
Please dont follow me around next time Im shopping in your store

And up here Im making you aware
That if you dont like me well I dont care
Ill be exactly who I am and if you got a problem with it
Well thats your problem, man
