## Terri Clark, That's How I Feel

(Sunny Russ/Terri Clark/Stephony Smith) What's going on in your head You haven't heard a word I've said I think we need to talk Cause you turn your emotions off And that's something I don't understand 'Cause that's how I feel With my heart Every beat, every part Way down deep In my soul I live and breathe to let you know That's how I feel You think the silence buys you time To make things clearer in your mind But I can't live in the dark Not knowing who you are So tell me how you feel inside That's how I feel With my heart Every beat, every part Way down deep in my soul I live and breathe to let you know That's how I feel That's how I get to know you If you'll only let it go you'll Find it's not as scary as it seems That's how I feel With my heart Every beat, every part Way down deep in my soul I live and breathe to let you know That's how I feel
