

# Terror, One Step Behind

Relentless, they're forcing in  
Now it's over, now it's over  
Under pressure, they drop the hammer again  
So much closer, so much closer to me

One step behind, one step behind  
I've got to cover my tracks

Mindless, so they call on me  
They've got me cornered, got me cornered  
Empty, so they steal to breathe  
Just get it over, get it over

Don't you ever look my way  
And don't you say the words I say  
Never will you tread on me  
You'll always be one step behind of me

One step, one step behind
