

Terror, Survival Comes Crashing In

Focused mind
I move in silence desperately
Can't lose myself in all that I see
Grinded by a will that never dies
Gotta break out, can't escape without a fight

Fight so hard just to get by
Confusion tries my peace
Fight so hard just to get by
Survival comes crashing down on me

So many answers I just could not find
So I roll with the lows and the highs
Gotta break out, can't escape without a fight

Hope gives birth to strength
Strength breaks through the loss, the greed
Got to break out, got to move on
Cause what was, will never be

Got to break out
Got to take some pain
Survival crashes in
Down on me
Survival
Comes down on me
Survival
