

Terror, Test My Convictions

Test my convictions
They'll run you through

You know where to find me
Different city to blaze
Bangin' out on the late night
Burn that shit up, live to play

Can't let the backlash touch me
Bottom feeders two faced
Never will I answer to you
I gave life, you gave nothing

Jealous loud mouths
Half truths, don't say my name
Got to hold my fists back
I can't live my life that way

A back you just can't turn
Can't look me in the eye
So little heart in you
I can't believe you're still alive
