

Tesco Value, The Others

If it's good for you
then it's good for us
we won't be the few
the few that never was
but please don't question
what we've done to all the others
we now love as one
Could I ever be down on my knees
if it wasn't for your morning breeze
well I just don't think it's up to you...
It can not be you
Who will guide us through
It's all the others
They won't bother
For what's been said and done
Doesn't make you the one
