

# Tesla, Caught Up In A Dream

if you can imagine this  
the whole world sharin' one big kiss  
these are thoughts all through my brain  
that i daydream every day  
i'm alive and well  
right now i'm alive, i'm feelin' well  
it's my life to live my way  
so i'll keep daydream anyway  
who knows, maybe someday it will all come true  
and i will get my way  
and we will live as one

\*chorus\*

i'm caught up in a dream  
i'm gonna wish for it all  
no one is gonna tell me how  
no way, this is my dream now  
i'm caught up in what seems  
simply impossible  
i ain't gonna change a thing  
no way, it's my dream

what cannot will be done  
for every living thing under the sun  
foggy color foggy race  
just be one big happy face  
among the sea of people  
live among God's creatures sharing love  
that was sent down from above  
here to share with another  
father, brother, sister, mother  
everybody share a love  
share a love

chorus

i close my eyes  
and everything will be alright  
here in my fantasy  
living in harmony  
make my dream come alive

chorus

if you can imagine this  
the whole world sharin' one big kiss  
take away the pain and hurt  
make like heaven here on earth  
without reason to die  
givin' everlasting life to all
