

# Testament, Careful What You Wish For

Grace - in a perfect world  
On shines the light  
Praise - an angelic song  
but there's another side you'll see  
Now hide  
salvation easily denied

Reigns - Down with misery  
Life's not always what it seems  
False hope  
written in the testament of old  
Take heed  
stop believing everyword you read

Truth inconsistencies  
Distorts the lie  
False imprisonment  
Forever lost inside your mind  
Fates door  
Just be careful what you wish for  
Death's door  
Just be careful what you wish for

Peace of mind I can't find  
Don't be blind take the ride

Hey... we live in a fucked up world  
Walking on through the demise  
We step into the unknown  
Your better save yourself...

Hey... we live in a fucked up world  
Hiding behind the disguise  
Never let your feelings show  
Why can't you be yourself...  
We live in a fucked up world  
Walking on through the demise  
We step into the unknown  
Your better save yourself...
