

Testeagles, Turn That Shit Up

C'mon C'mon Turn That Shit Up

Turn that shit up
Turn that shit up
Turn that shit up
Turn that shit up
Turn that shit up
Turn that shit up

Aww.. C'mon everybody turn it up so you can feel this
This is the sound but the radio will kill this
Don't bring us down cuz we're not about the mainstream
Got the underground build our own team

C'mon everybody turn it up so we can send this
We need to spread good vibes so we can mend this
This is what we see and this is how we'll drill this
Rings like a bell that's how we do this

Turn that shit up
Turn that shit up

Turn up the volume on my sing thing
So all the peoples out there can hear the rhymes I am bringing
To the track we stack style on the lyric
Crank ya stezza to tha max relax I know you feel this

Shake the stuff that shakes so well
Get your freak off baby and enjoy yourself
Move your body to every single sound
And turn that shit on up cuz thats how we like to get down

We swear from here on, not to let each other down

Turn that shit up
Turn that shit up
Turn that shit up
Turn that shit up

C'mon everybody turn it up so you can feel this
This is the sound but the radio will kill this
Where did they get 'the older the wiser?'
Watch all the young crew, surprise ya

C'mon everybody turn it up so you can feel this
This is the TE's sound so you can drill this
This is the sound of the new generation
We are the new generation

We swear from here on, not to let each other down
We swear from here on, not to let each other down
We swear from here on, not to let each other down

Turn that shit up
Turn that shit up
Turn that shit up
C'mon c'mon turn that shit up
