

# Testor, Shot In The Back

Don't breathe  
Don't look behind you  
Enjoy yourself alive  
The trigger of my gun above you  
How many prayers have you sent to god?  
Ever thought  
Which one will judge you?  
Ever thought 'bout death's design?  
You can believe me - it means nothing  
Just one step to cross the line

Down on your knees  
Face your disease  
How do you think  
WHAT IS YOUR FATE FOR TONIGHT!!!

Shot in the back  
Shot in the back  
Annoying fuck  
Shot from my gun  
Will perforate your skull

Shot in the back  
Shot in the back  
Annoying fuck  
Never be awake  
I perforate and break

Don't breathe  
Don't look behind you  
Enjoy yourself alive  
After one move it will be over  
And when the philosophers die  
One little pull and speech is covered  
Under a blood and flesh curtain  
The shotgun trigger will reign forever  
Throwing believers straight to hell

Down on your knees  
Face your disease  
You have no might?  
DIE MOTHERFUCKER GOODNIGHT!!!
