

# Texas, Bad Weather

Lovers come and lovers go  
Nothing lingers on  
Its more fun to take it slow  
Then it goes on and on

I need to explain  
You can't stand me I've always done it for myself  
I do it again  
You can't explore me you've been so good for my health

Chorus:  
I know we can walk through rain  
But I don't want to end up drowned again  
Too much dancing in bad weather  
Makes it hard to stay together

Tell me where you want to be  
Losing who we are  
That little place that we both need  
It sometimes seems so far

I need to explain  
You can't stand me I've always done it for myself  
I do it again  
You can't explore me you've been so good for my health

Chorus (x2)

Wait a minute baby  
I'll be here for a while  
Just wait a minute baby  
You know I love your style

Chorus (x2)
