

# Texas, Silver Chain

I saved you my name  
I even saved you my silver chain  
I saved you all I have  
I know it could be insane  
I don't need you to explain  
Cause I saved you all I have  
Come on now please  
Try and understand  
The way I feel now  
This is how we are  
I wanna wanna wanna know what it's like  
Get me these feelings all through the night  
I saved you my name  
I even saved you my silver chain  
I saved you all I have  
I know it drove me insane  
I don't need you to explain  
Cause I saved you all I have  
Say you got a remedy  
You got it in your hand  
So listen out now  
You wish and I'll demand  
I wanna wanna wanna know what it's like  
Get me these feelings all through the night  
I saved you my name  
I even saved you my silver chain  
I saved you all I have  
I know it drove me insane  
I don't need you to explain  
Cause I saved you all I have  
All I have (cause I saved you)  
All I have (cause I saved you)  
All I have (cause I saved you)  
....
