

# Texas, What About Us? (Dallas)

He came home late from his work one day  
Said he wanted some time alone  
What about you, what about me, what about love  
I knew I couldn't take this love heartache  
I knew I couldn't stand it alone  
What about you, what about me, what about us

Aah I know I'm special inside  
And how I gave you all of my life  
And here we go

Chorus  
I've seen it before when I just  
When I just needed more  
Than your touch  
Here we go  
You're not a million miles  
You're not a million miles from me

He came home late from his work one day  
Said he wanted some time alone  
What about you, what about me, what about love  
He came home late and apparently  
He was someone else when he got home  
What about you, what about me, what about us

Aah I know I'm special inside  
And how I gave you all of my life  
And here we go

Chorus

And here we go  
Chorus (3x)
