Texas, Wrapped In Clothes In Blue

Me close and understand It's now that I need you There's so much doubt when I'm alone I'm wrapped in clothes of blue And I need you to assure me Always be near me

I'm thinking about the times to come And already what we've done

It's only when I see you smile You open up my world Oh I want you to laugh again Join our hands and laugh again Lead ourselves through time And I need you to assure me Always be near me Show me you're right
