

# Thao With The Get Down Stay Down, Fear And C

I have seen fear and convenience  
I have never glimpsed a romance  
All my riches in the company van  
I drove much faster than the rain

Then it hurts you  
In a new way  
In a new way  
In a new way  
Then it hurts you  
In a new way  
In a new way  
In a new way

All our senses dry as cotton  
Petrified hearts  
Let 'em know if you got 'em  
And all I can give  
I wander from the shower  
My legs on your bed  
So I do not think about her

But tell me did it hurt you  
In a new way  
In a new way  
In a new way  
Tell me did it hurt you  
In a new way  
In a new way  
In a new way

Did it hurt you  
In a new way  
In a new way  
In a new way
