

# That Dog, Gagged & Tied

I'd like to take you home  
So that we can be alone.  
We'll go for a walk  
Then we'll go home not to talk.

And I don't care if you don't treat me like a lady.  
And I don't care just sit there and don't disobey me.  
Mistress never tells a lie  
Would you love me gagged and tied  
It's not your style, I can see you crack a smile.

It's okay with me  
I just want the company.  
Put on venus in furs  
And you can go home after work.

And I don't care if you don't treat me like a lady

And I don't care just sit there and don't disobey me  
Don't treat me like a lady  
Mistress never tells a lie,  
Would you love me gagged and tied  
It's not your style, I can see you crack a smile.

Would you love me gagged and tied  
Would you love me gagged and tied  
Would you love me gagged and tied  
Would you love me gagged and tied

Mistress never tells a lie  
Would you love me gagged and tied  
Mistress never tells a lie  
It's not your style, I can see you crack a smile  
It's not your style, I can see you crack a smile.
