

That Was Something, For The Fame

So when she rolls in the spot it's like get it get
And if you know what shes got it's to get it get it
And the dance floors on to see who takes her home
And when she got to the floor it's to get it get it
And shell have you begging for more
and you know you want it
And the dance floors on to see who takes her home
She lives in bed for the fame
but then again its all the same,
Shes keeping up with the game
it will never let her go
But baby dont stop
baby dont stop keeping you conscious
from under your sheets like it or not
If it all goes wrong
and you can't stop then I wont stop
So now the boys got her home
hes to get it get it
Shes getting down on the floor
and you know he wants it
And it dont feel wrong
catching heat like all night long
Hes got that heart on his sleeve
just forget it get it
But weve been down this road
dont you get it get it
And it dont feel wrong
going just one night without a moan
And now hes got it got it
So put your body back to the floor
tonight is not a issue, it's not an issue!
