

The 69 Eyes, Barbarella

Times are getting harder everyday
Stars seem to be so faraway
But she's waitin for me I'm sure she does

She's Ba-Barbarella Barbarella x3
My lazer-shooting planet queen

Everytime I see this movie
I fell so cosmic'n'groovy
When she's staring at me from my own TV

She's Ba-Barbarella Barbarella x3
My lazer-shooting planet queen

She's the sleaze goddess travelling through the space
A good body a beautiful face
The electric universe blows my mind
A trip in her ship there's no other kind

She's Ba-Barbarella Barbarella x3
My lazer-shooting planet queen
