

The 69 Eyes, Drive

You lit me up
Like your cigarette
Hanging in your mouth
Ruby-red lips
A morning fire
Sitting next to you
Wells of desire
Keep on rolling through

Just drive
Oh baby, drive
We're gonna drive through the city tonight
Just drive
Drive
Oh baby, drive
We're gonna drive through the city tonight
Just drive

No brakes to stop
Little red Corvette
Spinning in the night
Shake your hips
A morning fire
Burning next to you
Ever getting higher
Keep on rolling through

'Cause we gotta just drive
Oh baby, drive
We're gonna drive through the city tonight
Just drive
Drive
Oh baby, drive
We're gonna drive through the city tonight
Just drive

Just drive

I'm on fire
Baby next to you
Everlasting desire
Keep on rolling through

Just drive
Oh baby, drive
We're gonna drive through the city tonight
Just drive
Drive
Oh baby, drive
We're gonna drive through the city tonight
Just drive
