

# The 69 Eyes, Too Much To Lose

nothing's ever easy  
nothing's ever plain  
you gotta take what you can get  
My fist, for real  
No more of sympathy  
No more humanity  
Streets give and streets take  
Cold comes,  
Everyday too late

I know we'll meet again  
Streetwalking kids,  
and the world said

I've got too much to lose,  
to lose with you  
I've got too much to lose,  
to lose with you...

technology and satellite til  
no one here gets out alive  
the new star comes out in the sky  
Crazy diamonds,  
they never ever die

I know we'll meet again  
Streetwalking kids,  
and the world said

I've got too much to lose,  
to lose with you  
I've got too much to lose,  
to lose with you...

\*guitar solo\*

I've got too much to lose,  
to lose with you  
I've got too much to lose,  
to lose with you...
