

The 69 Eyes, Wings And Hearts

Hey hey baby where did you disappear
Hey hey baby where did you go from here
Did you hear it calling your name
Did you feel it burning in your veins
Hey hey baby where did you go with the rain

I saw a storm in her eyes
A thousands lives
And she danced on danced on like a fire

Wings & hearts
Two sides of evil
That's what you are
Angels wings and devil's heart
Voodoo got you
You got the voodoo

Wings & hearts
Two sides of evil
That's what you are
Devil's wings and angel heart
Voodoo got you
You got the voodoo

Hey hey baby why did you disappear
Hey hey baby why did you come back here
Did you hear me calling your name
Did you feel me burning in your veins
Hey hey baby why did you go with the rain

I saw a storm in her eyes
A thousands lives
And she danced on danced on like a fire

Wings & hearts
Two sides of evil
That's what you are
Angels wings and devil's heart
Voodoo got you
You got the voodoo
