

# The 7th Guest, Waterfall

Hey, you know  
Like a stone in the waterfall  
Down I go

You know,  
I will go  
Not at all what I want  
Can you save me?

Slow, and down the road  
I'll explode into shatters  
And then I'll see you laugh  
And I'll say  
You betrayed me  
Let me here in the smoke  
"

Bow your head in awe  
Down the waterfall I go  
Swirl in your passion  
And sink"

Remembering the days in the strife  
All my life was alright  
You see, you might be my reflection  
But please, please let me be

"Bow your head in awe  
Down the waterfall I go  
Swirl in your passion  
And sink"
