

The Accident Experiment, Song For You

i don't know where i should go since you've been gone
i search planets just to find where i belong
i'm unmending, pretending you can hear me screaming out my song
I STILL HANG ON TO YOU.
I SING THIS SONG FOR YOU.

i felt whispered rain fall on my face today
i felt everything begin to slip away
my sunrise keep falling
rhythms of your voice keep calling
inside arenas in my mind i sing for you to hear me say...
