

The Adicts, A Man's Gotta Do

I heard her scream
From the tower above
My heart it wanted to help
But the soldiers' who guard
Would surely stop my attempt

Well, a man's gotta do
What a man's gotta do

I scaled the wall
At night after dark
The coast was o' so clear
When i reached
the young maiden's cell
My heart was o' so near

As we made off
Into the night
My maiden in my arms
I thought it was just like the movies
Eat your heart out Errol Flynn!
