

# The Adicts, Peculiar Music

Isn't it strange  
But it makes a change  
From the usual mediocraty  
Sing about big brother  
Or sing about some other  
Brave new world  
Medieval factions  
With nuclear reactions  
Make interesting subjects  
This is civilization  
Or imagination  
Or some old melodrama  
The future enslaves us  
Will something ever save us  
From a fate worse than life  
We don't understand  
But we should demand  
To know the reason

Odd couple thats you and me  
Odd couple we're different,  
you and me.  
Odd couple thats you and me  
Odd couple we're different,  
you and me.  
That's you and me.
