

The Adicts, Troubadour

I wonder all over
I wonder alone
Adventure, romance
Many I've known

I'm just a troubadour
I'm in love with you
Traveled the world
Seen all the girls
I'm in love with me

I know that you know that
I'm looking at you
I'll sing you a story
And this one is true
I look at you
Look at me not a big star
Boys and girl
That's what we are

You know that I love you
You know that I do
Whatever happens
You know I love you
