

The Afghan Whigs, I Know Your Little Secret

Afghan Whigs, The
Up In It
I Know Your Little Secret
He liked to kiss the boys
He liked to kiss the girls
He liked to kiss the inbetweeners
Rub his tongue on their gums
Rub his tongue on their gums
&& lie with them
&& lie to them
&& light it up
I know your little secret
Watch my eyes
They see what you don't see
They see what you know
&& what you think i don't know
Ah but now we both can share
Everything we've ever done
Everyone we've ever touched
You liked the boys and girls
I know your little secret
All the lies
All the hesitation
Won't bring me closer now
Won't you bring me close
I know your little secret
