

The Afghan Whigs, I'm Her Slave

(Dulli)

get off that stuff she said
and i'll stone you instead
unchain yourself said she
and tie yourself to me
i'm on the floor
i play with knives
you can call and ask your wife
she's been over once or twice
likes to use me
and i'm her slave
but i don't need no chains
i'll behave
give me more of what i've come to expect
wrap your love around my neck
understand me when i say
you'll deny me
