

The Afghan Whigs, Southpaw

Afghan Whigs, The

Up In It

Southpaw

One eye open baby

Both hands tied behind my back

Surprise a comin in a cross street smile

How so the changes have come slow

Takers drivin got to take the wheel

We got their lives ahangin & their souls to steal

Give me a break wishbone cracky good luck charm

Rave on monkey

Come on down little sister

What might be right for goose might not be right for the gander

You got on the mississippi mudslide

Get up on the tchoupitoulis southpaw

You got to lie now chillun

You got to lie to be willin

O my soul it's time to awake

Come on down give the kingdom a shake

& o my soul it's time to get down
