

The Afghan Whigs, Step Into The Light

(Dulli)

Whenever the light shines
And the stillness is shaken
And the drug of your smile has gone
And left me alone
I need it bad, I need it now
Won't you come and give me some?
I need it sweet, baby please
Won't you answer the phone?
Step into the light, baby
Just give me the word
And I will begin
Step into the light, baby
And see the trouble I'm in
The light has gone
My love has gone
The good times have gone
Away
I have to ask, I need to know
Was it ever love?
I need it sweet, baby please
Come and give me some
