## The Afghan Whigs, Step Into The Light

(Dulli)

Whenever the light shines And the stillness is shaken And the drug of your smile has gone And left me alone I need it bad, I need it now Won't you come and give me some? I need it sweet, baby please Won't you answer the phone? Step into the light, baby Just give me the word And I will begin Step into the light, baby And see the trouble I'm in The light has gone My love has gone The good times have gone Away I have to ask, I need to know Was it ever love? I need it sweet, baby please Come and give me some
