

# The Afghan Whigs, Step Into The Light

Afghan Whigs, The  
Black Love  
Step Into The Light  
(dulli)

Whenever the light shines  
And the stillness is shaken  
And the drug of your smile has gone  
And left me alone  
I need it bad, i need it now  
Won't you come and give me some?  
I need it sweet, baby please  
Won't you answer the phone?  
Step into the light, baby  
Just give me the word  
And i will begin  
Step into the light, baby  
And see the trouble i'm in  
The light has gone  
My love has gone  
The good times have gone  
Away  
I have to ask, i need to know  
Was it ever love?  
I need it sweet, baby please  
Come and give me some
