

The Afghan Whigs, Step Into The Light

Afghan Whigs, The
Black Love
Step Into The Light
(dulli)

Whenever the light shines
And the stillness is shaken
And the drug of your smile has gone
And left me alone
I need it bad, i need it now
Won't you come and give me some?
I need it sweet, baby please
Won't you answer the phone?
Step into the light, baby
Just give me the word
And i will begin
Step into the light, baby
And see the trouble i'm in
The light has gone
My love has gone
The good times have gone
Away
I have to ask, i need to know
Was it ever love?
I need it sweet, baby please
Come and give me some
