

# The Alchemist, Different Worlds

(Twin Gambino)

Yeah, Yo

I grew up in the projects of QBC

(Alchemist)

I grew up in the lap of luxury where chickens love for me

I used to watch "Sesame Street"

(Twin)

I used to watch the D's play in the street

plus I couldn't wait to squeeze my first heat

(Alchemist)

I used to pray to God before I went to sleep every night

(Twin)

Same time I was kissing the dice, hitting my number twice

holding hammers with the heat out with nice

(Alchemist)

same time I was popping cap guns on BMX bikes

with grass stains on my jeans and scuffed up Nike's

(Twin)

I was like fuck school, I ain't going to class

easy money in the street, I was rollin' with that

never good at math but I knew how to add up cash

(Alchemist)

I used to win the spelling bees

my education was proper, my family wanted me to be a lawyer a doctor

I was smooth talker (back in those days) I was a moon walker

with a picture of my shorty inside of my school locker

(Chorus)

(Twin and Alchemist)

(T) I never had shit

(A) I always had it all

(T) We used to play with guns

(A) We used to play ball

(T) I used to pump crack

(A) In school I paid attention

(T) I was a hard head

(A) I always used to listen

(T) We turned bitches out

(A) I used to love hoes

(T) We wore hammy downs

(A) I always had new clothes

(T) I used to stay bent

(A) I couldn't hold my liquor

(T) It's kind of bugged out

(A) Two different stories in one picture

(Alchemist)

Yo

The first year of high school my parents noticed me slipping

Smoking cigarettes skipping class catching detention

(Twin)

Every night all I heard was freeze

Niggaz getting bagged by the D's

and some bitch that got a disease

(Alchemist)

Fourteen and watching Yo MTV Raps on 40 inch screens  
I learned how to tilt my hat sag my jeans  
wanted a Nefertiti piece thought that would be fresh

(Twin)

Me and my brother used to yank those shits straight off people's necks  
Summer time river park mans at 1 2 fifth  
Sticking kids with my identical twin  
If I could go back in time I would take you with me  
Show you what its like to live a lifestyle to risky

(Alchemist)

I put in work in rhymes and beats while you was putting work in the streets  
It's bugged out who ever would have thought that we'd meet  
But it's this rap shit that made this package complete  
They put us into the studio and put these raps to this beat

(Chorus)

(Alchemist)

I'm west coast, Imma rep it forever  
but I had to move to the east to get all of my respect and my cheddar  
To tell the truth, the only thing I really left was the weather  
All of my friends the same we always kept it together

(Twin)

Picture this: "Shook Ones" dropped, the Mobb on top  
Now rolling state to state with shows nonstop  
Seen the money Hav and P was getting off in the top  
off of hip hop I wasn't going back to the black

(Alchemist)

My man Muggs introduced me to U Nitty and G.O.D  
brought me to the studio to play music to Hav and P

(Twin)

You can't forget my dunns Noyd and Gotti

(Alchemist)

I was a nobody  
They showed me love told me they got me

(Twin)

Remember the first time I the bong, I was doing it wrong  
Took us some months till my high was gone  
They we showed you how to roll up dutchies then it was on

(Alchemist)

Now we rollin' all across the country with hit songs

(Chorus)
