

The Alice Band, Angel

There's an old man playing basketball
And the sun comes in like a waterfall
There's a teacup full of miracles
And you said that you loved me baby Black Crowes and all?

Angel look outside my window
The traffics in a tangle all the way back home
Angel stay with me forever
My loves like a river as we walk along

Yeah I wait in my room every time you're gone, baby
I lie in my bed and I write you these songs
If you were here you could sing along
And the sun would burst like butterflies all over my wall

Angel look outside my window (backing vox repeat)
The traffics in a tangle all the way back home (backing vox repeat)
Angel stay with me forever (backing vox repeat)
My loves like a river as we walk along (backing vox repeat)

The sun comes in my window
In a tangle all the way back home
The sun comes in my window
In a tangle all the way back home

Angel look outside my window (backing vox repeat)
The traffics in a tangle all the way back home (backing vox repeat)
Angel stay with me forever (backing vox repeat)
My loves like a river as we walk along (backing vox repeat)

Angel look outside my window (backing vox repeat)
The traffics in a tangle all the way back home (backing vox repeat)
Angel stay with me forever (backing vox repeat)
My loves like a river as we walk along (backing vox repeat)

The sun comes in my window
In a tangle all the way back home
The sun comes in my window
In a tangle all the way back home

The sun comes in my window
In a tangle all the way back home
The sun comes in my window
In a tangle all the way back home

The sun comes in my window
In a tangle all the way back home
The sun comes in my window
In a tangle all the way back home
