

# The All American Rejects, Can't Take It

You speak to me  
I know this will be temporary  
You ask to leave  
But I can't tell you that I've had enough  
I can't take it  
This welcome is gone  
And I've waited long enough  
To make it  
And if you're so strong  
You might as well just do it alone

And I'll watch you go

Step up to me  
I know that you've got something buried  
I'll set you free  
You set conditions but I've had enough  
I can't take it  
This welcome is gone  
And I've waited long enough  
To make it  
And if you're so strong  
You might as well just do it alone

And I'll watch you go

Come back home, won't you come back home  
You step in line, you got a lot to prove  
It comes and goes, yeah, it comes and goes  
A step in time, yeah, it's a lot to move  
Know this will be temporary  
I know this will be temporary  
I know this will be but I've had enough

I can't take it  
This welcome is gone  
And I've waited long enough  
To make it  
and if you're so strong  
You might as well just do it alone  
And I'll watch you go

I can't take it  
This welcome is gone  
And I've waited long enough  
To make it  
And if you're so strong  
You might as well just do it alone

And I'll watch you go
