

# The All-American Rejects, Mona Lisa (Demo)

Here's another pity there's another chance  
Try to learn a lesson but you can't.  
If we can burn a city in futures and in past,  
Without a change our lives will never last.  
Cuz we're going fast.

[Chorus]

You can sit beside me when the world comes down, If it doesn't matter, then just turn around.  
We don't need our bags and we can just leave town.  
You can sit beside me when the world comes down.

What can we do better, when will we know how?  
A man says from a sidewalk to a crowd.  
If we can change the weather, if you wanted to yourself. If you can't  
I guess we all need help, yeah, I need help.

(repeat chorus)

You can sit beside me when the world comes down, If it doesn't matter, then just turn around.  
We don't need our bags and we can just leave town.  
You can sit beside me when the world comes down.

We say  
We do  
The lies  
The truth  
And all I need is next to me.

Mmmmmmmmm we're going fast.

( chorus out)

You can sit beside me when the world comes down, If it doesn't matter, then just turn around.  
You be the queen and I'll be your clown.  
You can sit beside me when the world comes down.
