

The All-American Rejects, Night Drive

I know you
so better than the city in the rear view
I drive to
eliminate the ball that I'm chained to

Take me break me
every mile further there's a part of me that slips away
One day you'll see
Even if you got down on your knees you couldn't make me stay

Drive all night
Never gonna get me
Night by night
To get away from it all
Fight fight fight
All you wanna do is hurt me
You wrecked my life
So I'm gonna have to drive all night

I'll stay strong
I'm pushing on the pedal till I break dawn
So I'm gone, go find another shoulder you can cry on

Take me break me
every mile further there's a part of me that slips away
One day you'll see
Even if you got down on your knees you couldn't make me stay

Drive all night
Never gonna get me
Night by night
To get away from it all
Fight fight fight
All you wanna do is hurt me
You wrecked my life
So I'm gonna have to drive all night
You wrecked my life
So I'm gonna have to drive all night
You wrecked my life
So I'm gonna have to drive all night

All of the things that you knew that I'd try
All of the things that I held inside
All I gotta do is drive

Drive all night
Never gonna get me
Night by night
To get away from it all
Fight fight fight
All you wanna do is hurt me
You wrecked my life
So I'm gonna have to drive all night
You wrecked my life
So I'm gonna have to drive all night
You wrecked my life
So I'm gonna have to drive all night
You wrecked my life
So I'm gonna have to drive all night
you wrecked my life
so I'm gonna have to drive all night
