The All-American Rejects, Night Drive (Acoustic)

I know you So better than the city in the rear view I drive to Eliminate the ball that I'm chained to

Take me, break me
Every mile further there's a part of me that slips away
One day you'll see
Even if you got down on your knees
You couldn't make me stay

Drive all night
Never gonna get me
Night by night
To get away from it all
Fight, fight, fight
All you wanna do is hurt me
You wrecked my life
So I'm gonna have to drive all night

Pulse stay strong I'm pushing on the pedal til I break dawn So I'm gone Go find another shoulder you can cry on

Take me break me Every mile further there's a part of me that slips away One day you'll see Even if you got down on your knees you couldn't make me stay

Drive all night
Never gonna get me
Night by night
To get away from it all
Fight, fight, fight
All you wanna do is hurt me
You wrecked my life
So I'm gonna have to drive all night (ooh)
You wrecked my life
So I'm gonna have to drive all night (ooh)
You wrecked my life
So I'm gonna have to drive all night
You wrecked my life
So I'm gonna have to drive all night

All of the things that you knew that I'd try All of the things that I held inside All I gotta do is drive

Drive all night Never gonna get me Night by night To get away from it all Fight, fight, fight All you wanna do is hurt me You wrecked my life So I'm gonna have to drive all night You wrecked my life So I'm gonna have to drive all night You wrecked my life So I'm gonna have to drive all night You wrecked my life So I'm gonna have to drive all night You wrecked my life So I'm gonna have to drive all night
