

The Almost, Drive There Now

Winter days make me say what the hey
Let's say what we needed to say
Since way back when we sailed our inhibitions
Hold on tight 'cause this is so the truth...
This is so the truth

I love the way that we laugh until we cry
Dance until we die
I love the smile with which you look at me
And say get ready for this Aaron
Get ready for this

I hope this gets you harder
I hope you act so much stronger than
I imagined
Honestly it gets you every time that I want it to
Honestly I think you're strong...

I love the way that we laugh until we cry
Dance until we die
I love the smile with which you look at me
And say get ready for this Aaron
Get ready for this
