

# The Alter Boys, Little White Lies

I'd do anything for you - girl you know it's true  
All the beauty you see before your eyes - Are lies  
So let's stop pretending - we're still alive

You know it's never to late - to turn right back around  
With all the beauty before your eyes - it's a lie  
So let's stop pretending - we're still alive

One look in your eye had me blind that I will not deny  
fell for the bait a mistake that clearly was mine  
You spoke of forever now severed it echoes my cries

Keep your faith keep your dreams keep that white lies

I'd do anything for you - boy you know its true  
All the beauty you see before your eyes - are lies  
So lets stop pretending - we're still alive

Faced with the truth at a loss for an alibi  
Black as the night in spite of a moon lit sky  
Still I'll love you, yes love you til the day that i die  
Keep your faith keep your dreams and that little white lies
