

# The American Analog Set, Fool Around

Fool around  
You fool around  
Did an older girl get to school you now?

It's the rule around  
You don't choose it now  
You can turn around  
And get turned around

There's a ring around  
She don't keep around  
She don't fool around  
When she fools around

So he moves around  
And gets schooled around  
'Cause she fools around  
On a boy who never thought to fool around

Fool around  
You fool around  
Did a younger boy get to rule you now?

It's the rule around  
You don't choose it now  
You can turn around  
And get turned around

There's a girl in town  
And she's cooler now  
So he's moving out  
Out where it's cooler now

And he moves around  
And gets schooled around  
And he fools around  
On a girl who never thought to fool around
