

# The Ancient's Rebirth, Reformation Divine

Wrath of evil is mighty  
Wrath of evil is strong  
All evil shall crush (god) the almighty  
Blood shall cover his throne  
At last our forces are faced  
To crush the weak by hate

We are the bringers of evil  
We are the bringers of war  
We are the children of darkness  
And darkness was here before god

1000's of demons are howling  
Waiting for sign to break free  
Face the swords of immortals  
Face the hate in their eyes  
There's no return for jehovah  
There's no return from this night

...The human soul is a beast  
Fed on hatred and lust  
So serve your infernal soul  
Follow all urges from hell
