## The Androids, Automatic

I push so hard they hardly push back Instinct has led me to a man trap Divorce my conscience to be undone Throw down my ladder so you can get up It's automatic

I just can't help it Part dopey dog and one part steam train

On the back foot I see that look again I push so hard they hardly push back And you say, alright It's automatic

I just can't help it I tell you what to do

I'll do the work for you I'll tell you what to do It's automatic

I just can't help it It's automatic I just can't help this place I'm in
